

Hornet Headwind Fan

Includes:

Hornet Headwind Fan
Articulating Double Socket Arm
Talon Clamp with male thread $\frac{1}{4}$ "-20 x 1" ball
Storage Bag and Velcro cord strap

Operating Instructions:

- Assemble the components as shown above
- Position the fan in a location that will work best for your application
Either on the glareshield or the yoke
(Do not block any instruments, remove before take-off and landing)
- Plug it in and enjoy a much more comfortable flight!
- Flawlessly operates on all aircraft voltages (10V to 30V)
