Product List

Flashlight x 1

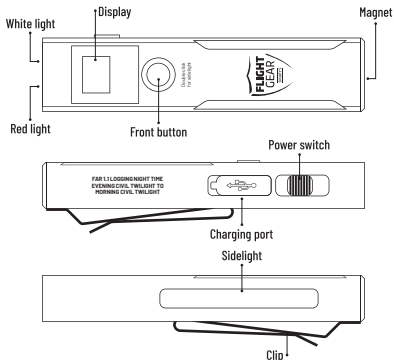

Charging cable x 1

Manual x 1

Product Features

- Main white light is equipped with a P9 LED
- Maximum brightness output is 1200LM
- Red light
- White and red dual-color sidelight
- Anti-roll design
- USB-C charging
- Digital display
- Magnetic base
- Dual side clip

Operation

ON/OFF: Push the side switch forward (red) or backward (white) to turn it on, and push it back to the middle position to turn it off.

Controls:

- Push the side switch forward, the red light turns on, and the display screen displays "RED" with the flashlight icon and the battery charge.
- Push the side switch backward, the white light turns on, and the display screen displays the current mode, the flashlight icon and the battery charge. Click the front button to cycle through modes.
- If there is no action within 5 seconds after the display screen lights up, the display screen will turn off, press the front button to light up again.
- Double-click the front button when either light is on to switch to the sidelight. Single-click to return to the front light.

Charging

Open the rubber cover to expose the Type-C charging port. Connect a Type-C cable to any power source to charge the flashlight. When charging the flashlight on 5V=1A, it takes about 2 hours to fully charge the flashlight. Make sure the flashlight is off before charging.

Problems	Causes	Solutions
Abnormal flash or failure to turn on	Check if the switch is turned on correctly	Turn on the switch
	Check if the battery is charged	Use the charging cord to check the battery
Abnormal noise	Check to see if there is any visible damage	Please contact Sporty's Customer Service

Warranty policy

1 year warranty: Since date purchased, within one year if product fails to work because of a quality problem, we will offer free repair service.
